

OUT AT "ALTENHEIM."

The Second Anniversary of the Home for the Aged

VERY HANDSOMELY CELEBRATED

By a Big Supper and Orchestral Concert and Vocal Music—A Pleasing Entertainment, Surpassing in Attractiveness and Attendance the Similar Event of last Year—The Efficient Committees.

being the entertainment in celebration of the second anniversary of that well known benevolent institution. This event exceeded the previous one, not only in numbers present, but also in attractiveness. As is well known, these entertainments are exceedingly popular with those who desire to take their families, and the gathering yesterday was no exception to the rule. Family groups were frequent, always surrounded by the younger element, who were there in number, and, as regards the fairer sex, lovely in form and attire.

The exceeding beauty of a bright May day had much to do with the large attendance. Guests began to arrive as early as 3 o'clock in the afternoon, and from that hour until 7 there was almost a constant stream of arrivals. The

larger number, however, went out on the 5 o'clock motor, in time for the bounteous supper prepared by the ladies connected with the institution.

All of the guests were in raptures over the beauty of the grounds, which are in finer condition than ever before. The smooth lawns, dotted on all sides with flower beds of brilliant hues, called forth many compliments. Superintendent Kroger being showered with praise for the excellent taste displayed in his landscape gardening.

The handsome interior of the building was entirely in keeping with the fine lawns and surroundings. Almost every room contained floral decorations the most profuse. In the main parlors this was especially so. They were fairly filled with cut flowers, lilies, tulips, lilies of the valley, palms and potted plants.

On entering the hall all the guests were received by the reception committee, who had a bright smile of welcome for all. The committee was composed

of Mrs. Anton Reymann, assisted by Mrs. B. Walker Peterson, Mrs. John E. Frazzheim and Miss Anna Lang.

The guests were then ushered through the various rooms for inspection. Each looked so inviting and cheerful as to cause one to desire to be an occupant forever. At present there are ten permanent residents of the home, and another is expected soon, her application having already been made.

For several hours a fine supper was dispensed in the main dining-room and in the refreshment room, the latter being pressed into service to accommodate the large crowd. The supper was under the supervision of Mrs. N. B. Scott, Mrs. Louis F. Stifel, Mrs. James B. Scott, Misses Annie and Nettie Royman, Anna Hess, Louise Stifel, Annie V. Sage, Love Lang, Marie Stifel, Nellie Lang and Annie Wingert.

Throughout the afternoon and evening the Opera House orchestra, which was stationed on a knoll at one end of the building, discoursed the strains of

popular music, adding a great deal to the pleasure of the visit. Mr. Reymann played with the band. It is not often the founder of such an institution is able to assist in rendering instrumental music for the enjoyment of its inmates and visitors.

All of the guests sought their own particular diversions and pleasures, some promenade the verandas and listening to the music, renewing acquaintances, and in various social pastimes. The favorite pastime with

the younger element, particularly when in pairs, was to stroll over the grounds, chatting and gathering violets, which grow in abundance on all sides. The favorite spot was the top of the hill, where the observatory is located. Here knots of guests assembled at all hours, taking in the sweeping view of Pleasant Valley and the beautiful surroundings. At seven o'clock an impromptu parlor concert was inaugurated, to the delight of the guests.

Miss Anna Lang played a number of well executed piano solos, Mr. Charles

Zulauf and Mr. Will B. Day also rendered a number of vocal gems, all of which were heartily enjoyed. At dusk the grounds and building were illuminated with colored glass and Chinese lanterns, which presented a beautiful sight, especially when viewed from a distance.

The guests started to return to the city on the 8 o'clock motor, the major portion, however, remaining until the last motor, being loath to leave such a place of beauty and hospitality. Every one was delighted with the visit, and expressed hopes of an early repetition, but none more heartily echoed this sentiment than the happy residents of the home.

What Wheeling Should Have.

By an advertisement in another column a meeting is called in the board of education's rooms this afternoon at 2 o'clock, to consider the feasibility of establishing a kindergarten school in Wheeling. That such a school is greatly needed in Wheeling needs no argument to parents of little children, and that it would succeed in this city is almost certain. Those who are interested in today's meeting would certainly be patronesses only of a school worthy of the public confidence, and there should be a good attendance at the meeting at 2 p. m. to-day.

NOTES ON NAVIGATION.

Stage of Water and Movements of Boats. The River Interests.

To-day's packets are the C. W. Batchelor, for Pittsburgh, at 9 a. m., and Ben Hur, for Parkersburg, at 11:30 a. m.

Nothing has been done with the Bella Prince, which was disabled at Boggs' Island Tuesday night. The boat will very likely be taken to the docks.

The marks on the wharf show 10 feet in the channel and falling. If the water keeps on falling at the same rate as in the past few days there will be no boating stage by Monday.

The freight business about the wharf has been exceedingly brisk the last few days. The wharfboat was almost completely buried yesterday morning with miscellaneous freight.

The B. D. Ward, which passed down on Wednesday afternoon with a big tow of coal for southern points, burnt out her boilers just below Bellaire and was compelled to tie up at Kate's Rock to await repairs.

Yesterday's arrivals and departures were the Iron Queen, from Cincinnati, for Pittsburgh, at 6 a. m., with a big lot of freight and passengers, the H. K. Bedford, for Pittsburgh, at 8 a. m., the Hudson, for Cincinnati, at 8 a. m., Annie Laurie, for Pittsburgh, at 9 a. m., Sunshine, for Parkersburg, at 11:30 a. m.

BANK SUSPENSION

At Indianapolis Caused by the Chemical's Failure at Chicago.

INDIANAPOLIS, Ind., May 11.—The Capitol National Bank, of this city, located on South Meridian street, suspended this morning. The statement is made that the closing of the bank's doors was made necessary by the failure of the Chemical National Bank, of Chicago, last week, which institution owed the Capitol \$100,000. The bank is the depository of a number of building associations. The announcement of the suspension of the bank came as a great shock to the people. Theories as to the cause and as to the ultimate result of the failure flew fast and thick. Some expressed the belief that the suspension would be only temporary. The general uneasiness was very manifest, however.

M. D. Wilson is president and Charles Dougherty cashier of the suspended Capitol bank. They say: "The bank has available assets at this time to over \$200,000, not including the deposit with the Chemical national bank. If that were at the disposal of the bank there would be no necessity for the step that has been taken. The loans and discounts of the banks have been conservative, and it is believed by the officers of the bank that they are of excellent quality. The assets and liabilities of the bank at the close of yesterday's business were \$1,465,902 78. We think the business is in such a shape as to be readily settled up without injury to any of the business interests of Indianapolis. There are enough available funds on hand to pay almost if not quite 25 per cent to the depositors and the paper is of such character as to be easily realized upon, so that there need not be much delay in depositors in getting all their money."

Another Failure in Chicago.

CHICAGO, May 11.—The Columbia national bank of this city suspended today. The bank had offices in the insurance exchange. The deposits were \$1,400,000 and the capital \$1,000,000. Rumors that the institution was in trouble have been current for nearly a week. It did business with small country banks and was not in esteem with the other banking concerns of the city.

As to the cause of the failure those who should know say that collections on loans have been poor.

Will Lose Nothing.

WASHINGTON, May 11.—Comptroller Eckels was today advised that the stockholders of the Chemical National Bank of Chicago, whose failure was recently announced, will make good the impaired capital as soon as the amount can be ascertained, and the bank will resume. Every cent, it is asserted, will be paid, and it is understood that the depositors at the World's Fair branch have already been paid.

Failure at Wilmington.

WILMINGTON, DEL., May 11.—The announcement of the failure of R. R. Robinson & Co., bankers and brokers of this city, today created a sensation. The liabilities are estimated at \$300,000 and the assets \$100,000. The sheriff has seized all the property.

Failure in London.

LONDON, May 11.—Hall & Co., navy agents and bankers, No. 7 St. Martin's Place, W. C., have suspended. The suspension has caused a sensation in military and naval circles in the West End, as many officers and depositors with the company, but commercially the failure is of slight importance.

Eighty Families Homeless.

DETROIT, Mich., May 11.—A special says that one-half of Spring Lake, a village on the Detroit, Grand Haven & Milwaukee railway, and on the Grand river, two miles above Grand Haven, has been destroyed by fire. The village has five churches, a graded school, a library, three hotels and several saw mills.

The steamboat Barrett passing up the river is said to have set the saw dust afire by sparks from her smoke stack at 7 this morning. Eighty families are without a home. Loss will foot up to more than \$100,000, amount of insurance not known.

A Levee Breaks.

NEW ORLEANS, May 11.—The levee broke today at Lakeport, Ark., and is filling up the Black river and basin. Both are said to be low and able to hold the water.
